Products & Production

Corrugated Boxes | Offset Printed Cartons | Folding Cartons |
Flexible Laminates & Pouches | Retort Packaging | Luxury Rigid Boxes
Paper Mailer Bags | 2 Ply Corrugated Mailer Bags

Our Mission is to

- Become one of India's leading packaging solution providers
- Prioritize **CUSTOMER NEEDS** and ensure **TOTAL SATISFACTION**
- Continuously upgrade **TECHNOLOGY** and **PROCESSES** to keep up with the latest packaging solutions
- **OUTPERFORM** our **COMPETITION** as a technologically-driven company
- Maintain **SIMPLIFIED** operations and **INSPIRE** our **TEAM** for greater success.

Our Vision is to

- Become a trendsetter in the Indian packaging and manufacturing industry
- Offer both class-leading services and innovative products

OUR VALUES INCLUDE -

- Valuing, challenging, and rewarding our **PEOPLE**
- Putting our **CUSTOMERS** at the center of what we do
- Driving excellent sustainable **FINANCIAL PERFORMANCE**
- Demonstrating leadership in **SUSTAINABILITY**
- Building our future on a **FAMILY BUSINESS** foundation

Great for packaging your desired piece!

Flexible packaging means a reliable choice for your brand or goods. With custom flexible laminates and pouches, your company can go from average to spectacular. You can accomplish your objectives with the help of our assortment of cutting-edge flexible laminates and pouches. Our unique flexible laminates and pouches are produced just by us! They are composed of high-quality material, are thin, and allow you to choose the best option to seal and safeguard your items.

We box the best so it unboxes the best

What makes a corrugated packaging the best? We believe its high grade material technology, quality, research and machinery. We are delivering packages of excellence in the form of 3/5/7 Ply Corrugated Box, Fruit Trays, Bins, Corrugated Pallets, Pizza Boxes/ E Fluted Cartons, PDQ/Displays and more. The use of advanced machinery and well curated processes make our packaging stand out.

Offset Printed Cartons/ Folding Cartons

We have the greatest workforce and equipment to create specialised folding cartons for a variety of product categories and marketplaces. We provide customised folding cartons with top-notch printing options.

As a major manufacturer of folding cartons, multipacks, paperboard, and labels, we collaborate with a range of firms/companies and provide a broad range of capabilities. We create solutions for businesses that make food, serve food, make beverages, sell pharmaceuticals, healthcare and beauty items, general household products or make express mail envelopes.

Litho laminated cartons are the new cool in the shelf space!

We create custom printed boxes, the quality printed sheet is laminated on the corrugated boxes that provide maximum visual impact to the product. Litho-laminated cartons are very economical and convert old and unattractive packaging with high-quality graphics packaging.

RESEARCH & DEVELOPMENT

It's The Work Of A Team,
What You See & Experience!

Our attention to detail gives you an unmatched advantage.

With an innovative approach and cutting-edge technology, we solve our customers' most difficult packaging challenges. We have an R&D team that deals with high-quality materials, packaging designs, and technical aspects. To ensure the best output, our team manages machinery and automation with a digital approach.

Transforming Ready-to-eat Food Packaging

Retort packaging is making life easier! Our pouches are heat-resistant laminated plastic, semi-rigid, flexible packages that are well-designed, resource-efficient & space-efficient. Best suitable for keeping products like soups, pasta, rice, sauces, and cook-in-a-bag meals sealed and sterilized in these pouches with a maximum temperature of 121°C. They are hence the preferred packaging for prepared, processed foods. These retort pouches are extremely cost-effective to ship because of the strong packaging, which keeps them safe throughout travel.

Keeping 'Splendour' Inside Out

We are engaged in manufacturing and supplying stiff firm Luxury Rigid Boxes for decades. Carrying huge volumes of industrial expertise is desired nowadays reflects in our boxes' eternal sheen and class attached to them. A vast selection of specialty papers makes sure that we can customize our premium boxes exactly to fit your tastes. Available in posh color combinations to cater to the niche market, we also customize the boxes with your logos & emboss them.

INNOVATION

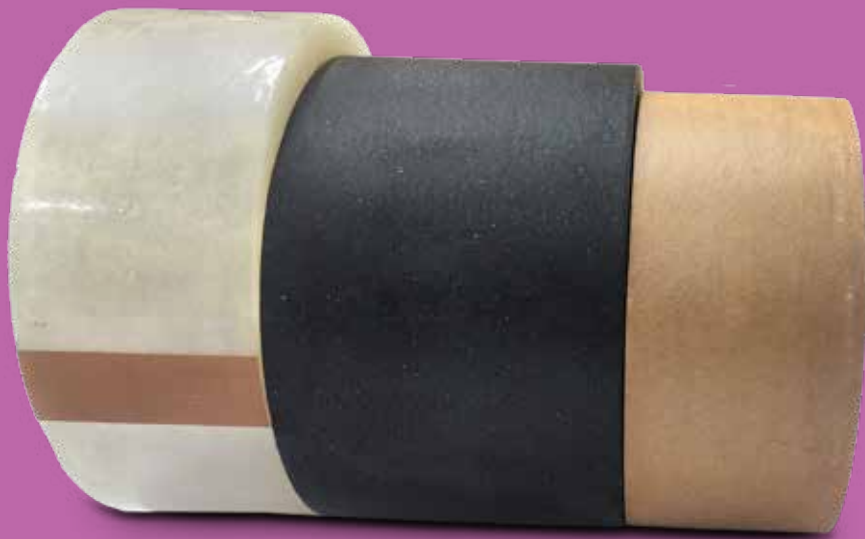

It's In Our DNA

We solve the biggest packaging challenges of our customers with an innovative approach and leading technology. We have a team under R & D who deals with premium quality materials, packaging designs & technical aspects. Our team manages machinery and automation with a digital approach to ensure the best output.

Redefining Secure & Eco-friendly Packaging

Get an innovative mix of paper and the strength and flexibility of plastic in mailer bags. We manufacture different sizes of paper mailer bags that are used by courier, parcel & freight firms for online order delivery, secure mailing, storage of sensitive data & the secure movement of their client's documents and consignments. Our mailer bag has Peel-&-seal strips for easy closure and reuses, open along the perforated line, remove the strip and reseal if you wish to reuse it.

We Stick to the Best

We present BOPP & paper tapes with high holding power and reliable case-sealing capabilities. Our tapes Adhere well to fiberboard, paper, film, and a variety of other substrates by reflecting excellent grip. Apart from being Easy-to-use & versatile these tapes are ideal for manual (hand rolls) or automatic (machine rolls) case sealing.

Here's the Durable Label Solution

Prem has always believed in bringing better ideas to the surface through technology. Introducing our new label stock line. Our Label stock is an amalgamation of laminate & paper. We adhere to your specific requirements, so label it whatever you see fit!

Packaging with the Best Eco-friendly composition

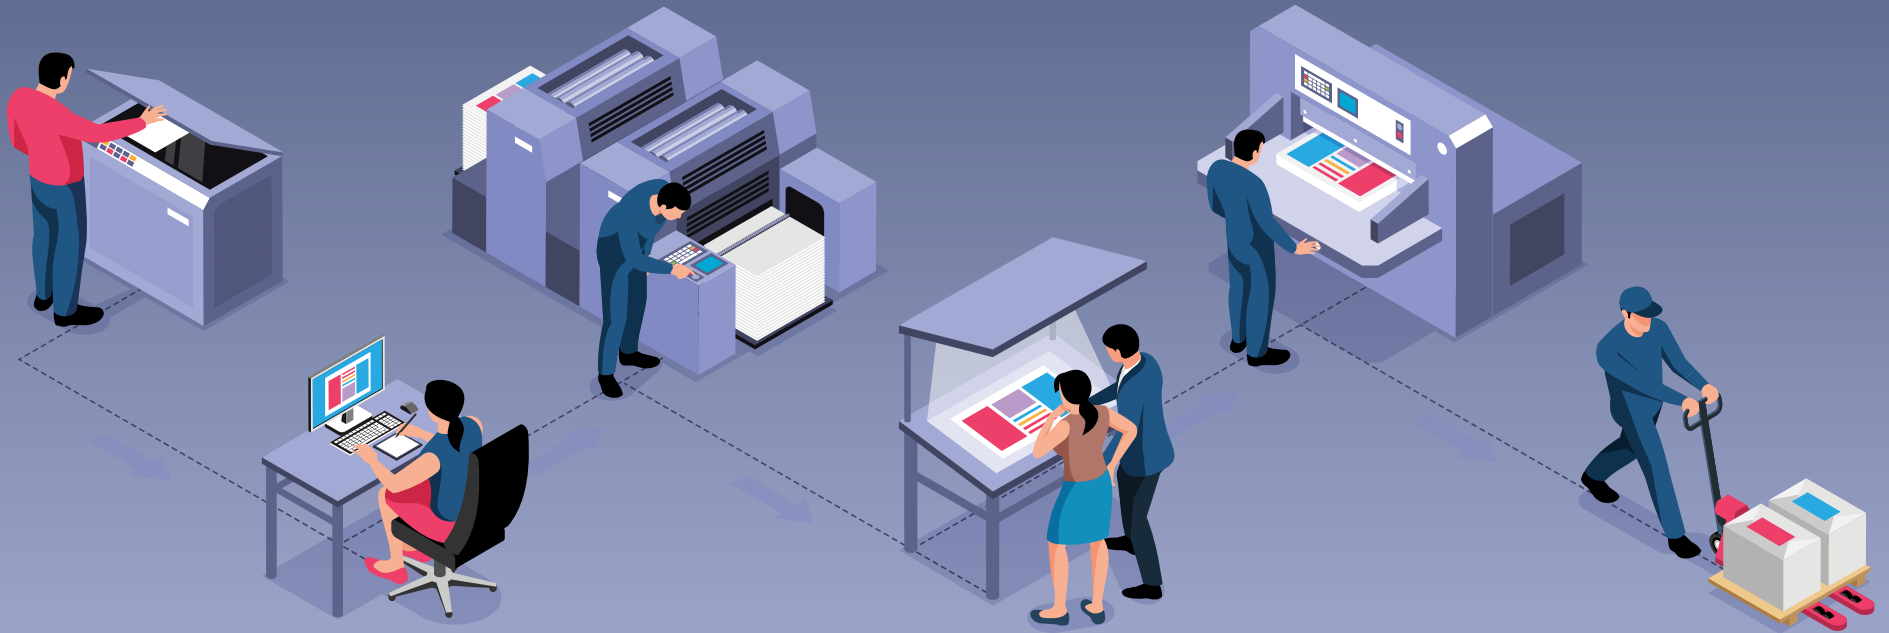

Delivering high-quality corrugated mailer bags that are innovative, 100% recyclable, and a great alternative to polythene mailing bags.

We are manufacturing it with advanced machinery and material technology. These bags are reusable mailers and are ideal for round-trip (two-way) fulfillment of samples, replacement parts, exchanges, returns, documents, etc. The corrugated mailer bag features a hot ply strip, perforated line & level 4 ink.

INFRASTRUCTURE

Currently, there are about 800+ employees in Prem Industries. We have three specialised manufacturing units covering 4, 75,000 square feet. These units incorporate the finest technologies from around the world. Our 6 warehousing locations for raw materials and finished goods cover 1, 00000 square feet in North India.

An aerial photograph of a large industrial building. The building features a prominent corrugated metal roof that is divided into several sections by ridges. The lower portion of the building has a modern glass facade. The surrounding area includes other industrial structures, trees, and a white perimeter wall in the foreground.

LABEL STOCK &
RIGID BOX DIVISION**

FLEXIBLE LAMINATES & POUCHES DIVISION

An aerial photograph of a large industrial building with a long, low profile. The main roof is made of weathered, grey corrugated metal. A section of the building has a red brick facade. To the left, a long row of large, cylindrical objects, possibly rolls of paper or fabric, is visible. The building is surrounded by lush green trees. The text "OFFSET PRINTING DIVISION" is overlaid in white on a semi-transparent dark band across the upper part of the image.

OFFSET PRINTING DIVISION

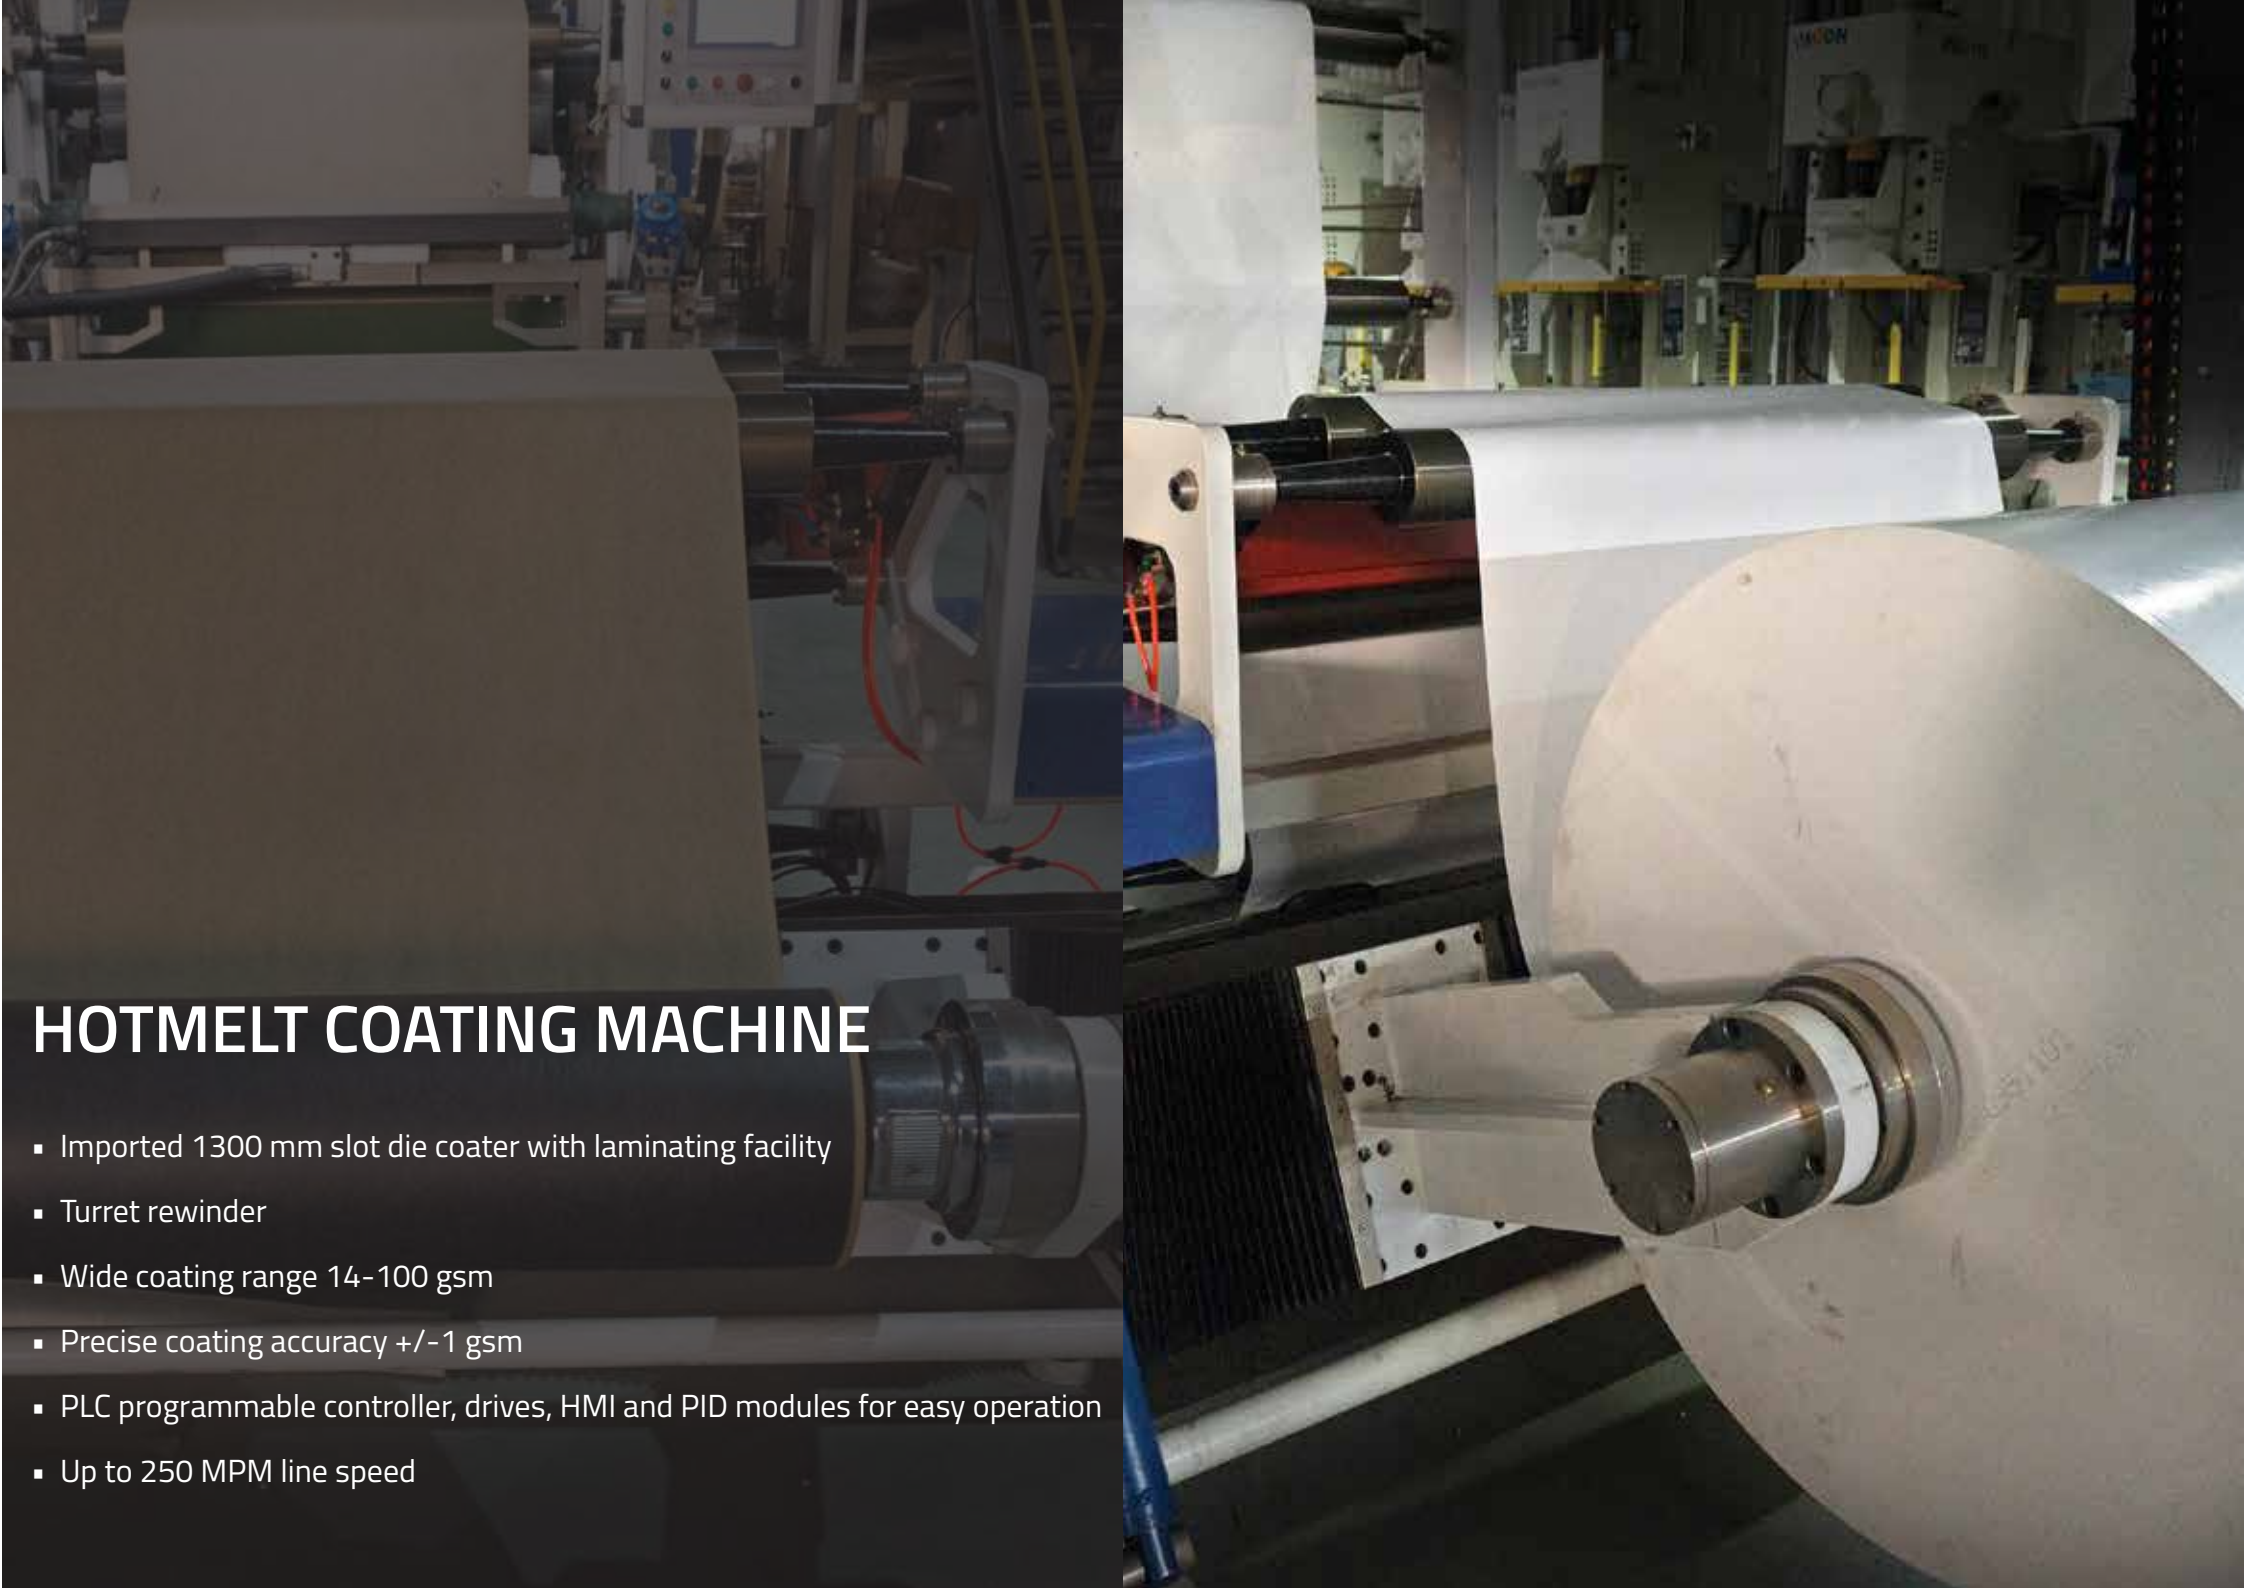

WAREHOUSE

We have created an efficient ecosystem to stay compliant and deliver packaging solutions consistently to achieve customer satisfaction. We have cutting-edge equipment that complies with international standards and an internal setup for everything needed to make a range of packaging. We have labs and quality testing machines /equipment with experts operating them.

MACHINE MIX

HOTMELT COATING MACHINE

- Imported 1300 mm slot die coater with laminating facility
- Turret rewinder
- Wide coating range 14-100 gsm
- Precise coating accuracy +/-1 gsm
- PLC programmable controller, drives, HMI and PID modules for easy operation
- Up to 250 MPM line speed

SILICONE COATING MACHINE

- 5 roll system coating head for uniform coating
- Gravure Trolley
- Corna Coater Trolley
- B hood dryer system
- Up to 250 MPM line speed
- Capable of handling PE/BOPP/PET and paper

MING WEI (FULLY COMPUTERIZED 5 PLY AUTOMATIC CORRUGATED BOARD LINE)

Components from the US Europe and
Japan Assembled 100% in Taiwan

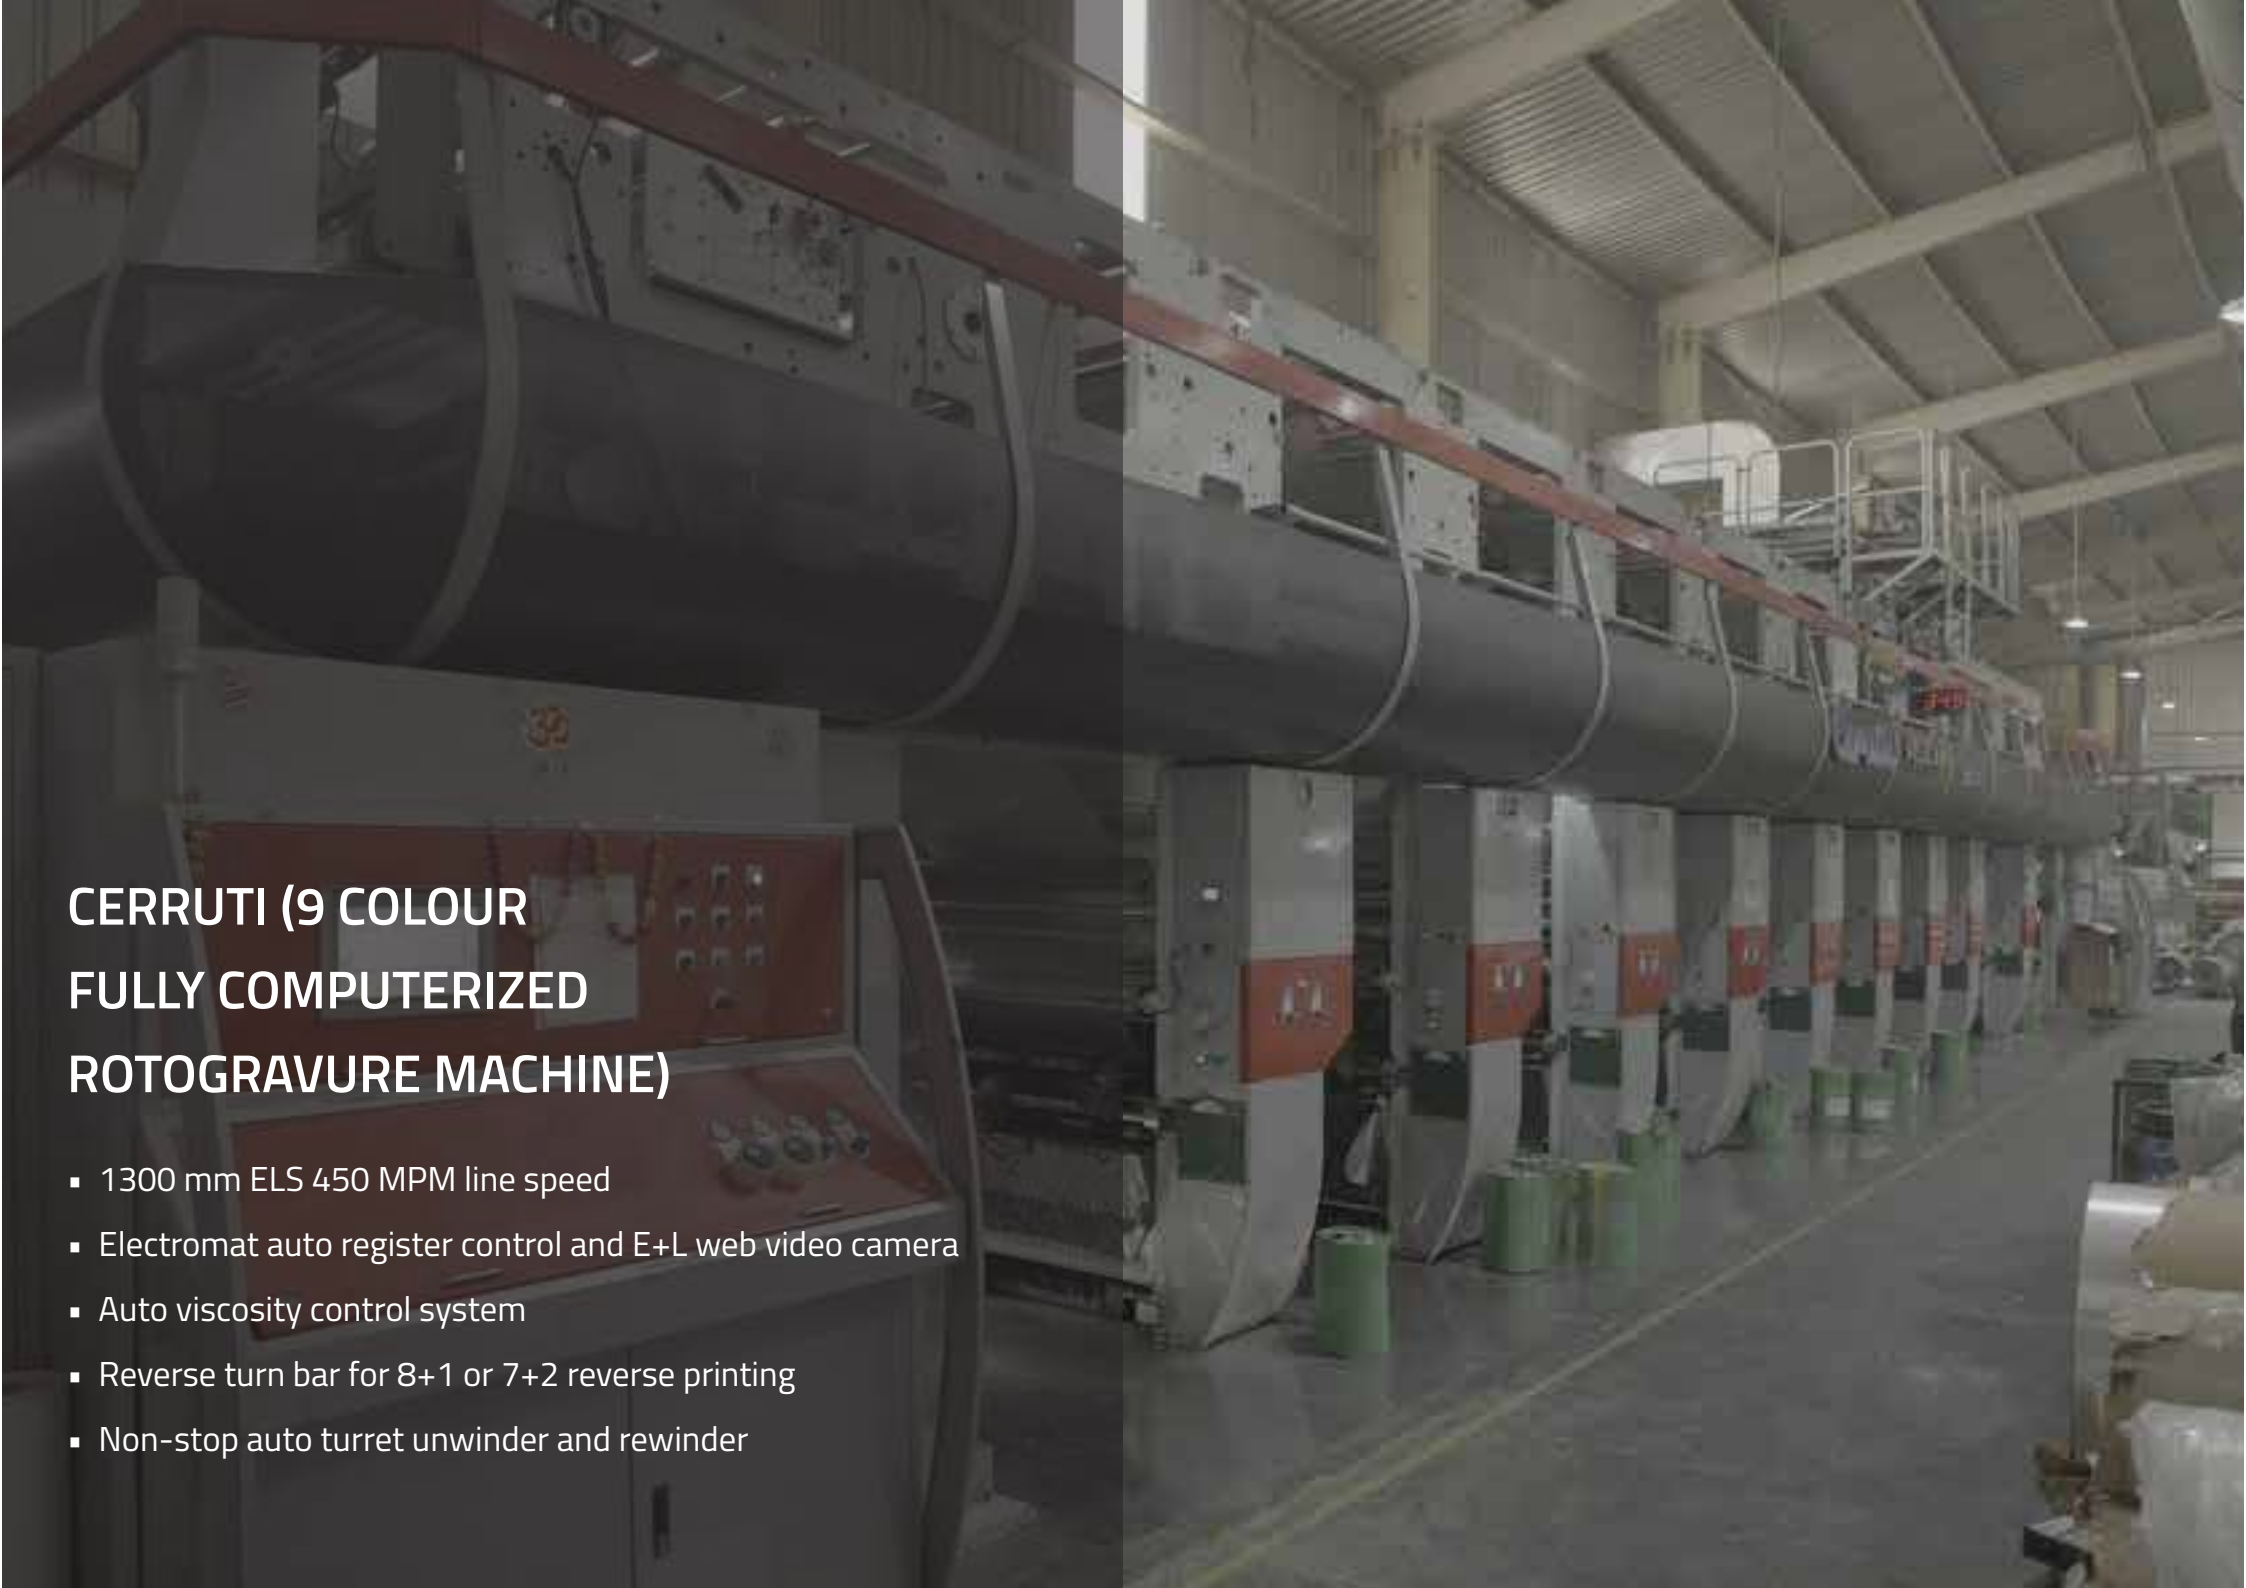

- 1.8 Meter Width
- Top Speed Of 225 Mts/min
- Automatic Glue Kitchen From U.S.A.
- Fully Computerised Machine Connected Via Erp System
- Tungsten Carbide Fluting Rolls (Fluting Options Of A, B, C, E.... Available)
- Air Bond System On Double Backer From Uk
- Fully Computerized Production Control System
- Automatic Rotary Slitter Scorer
- Automatic Board Stacker

HEIDELBERG (OFFSET PRINTING MACHINES, 7 COLOUR UV PRINTING, 6 COLOUR, 5, 4, 2)

- Highly Automated And Most Intelligent Speedmaster
- Machine Speed (lph): 15,000 Sheets/hr
- Max Printing Size: 28' X 40'
- Capable For Uv Printing
- Alcolor Dampening
- Automatic Roller Wash

CERRUTI (9 COLOUR FULLY COMPUTERIZED ROTOGRAVURE MACHINE)

- 1300 mm ELS 450 MPM line speed
- Electromat auto register control and E+L web video camera
- Auto viscosity control system
- Reverse turn bar for 8+1 or 7+2 reverse printing
- Non-stop auto turret unwinder and rewinder

YAMAHA ROBOTIC POSITIONING SYSTEM (RIGID BOX-MAKING MACHINE, MADE IN JAPAN)

- Fully Auto Rigid Box Making Machine With Robotic Arm & Visual Positioning
- High Positioning Accuracy (+- 0.1mm)
- Can Make Ear - To - Ear And Ear - Cross- Ear Folding Box
- Also Make Some Irregular Shape Box. Like High - Low Boxes

SHEET METAL COMPONENTS

- Alloyed steel single and double crank shaft with reverse operation, pneumatic presses
- 45 MT to 315 MT machines
- High precision, meeting level J151 standard
- High precision 8 side long guide rail
- Pneumatic clutch-brake unit
- Servo de coiler units
- Powder coating facility and welding machines
- Complete tool room facility

QUALITY CONTROL

We have created an efficient ecosystem to stay compliant and deliver packaging solutions consistently to achieve customer satisfaction. We have cutting-edge equipment that complies with international standards and an internal setup for everything needed to make a range of packaging. We have labs and quality testing machines /equipment with experts operating them.

Research & Development

We are proud to say that our Research and Development (R&D) team is well-equipped to create new packaging or discover new ways to improve the existing packaging line. Our in-house R&D team represents the fusion of various departments. When the experts from different verticals (corrugated, flexible, e-com, printing, rigid boxes etc.) come up with new ideas and innovative approaches, they create a synergy that helps adding value to the packaging solutions and evolve the range.

Sustainability

As we work towards creating the best customer experience, we also ensure that sustainable alternatives are offered. We are a tailored company with mindful efforts toward decreasing our carbon footprint. At Prem Industries, we constantly innovate towards sustainability, building a host of eco-friendly products made from recycled materials. We advocate responsible functioning, which ensures that the footsteps of sustainable development are followed thoughtfully.
